Having been set up in 2004, IMT Nagpur has successfully achieved the recognition of being one of the most well-known premier B-Schools in the country. Ranking among the top half percent of the B-Schools in India, IMT Nagpur, in its 27 acres of lush green campus in the midst of the nature, has the unique amalgamation of faculty, technology, curriculum and diverse cultural environment to equip its students to face and lead the complexity of dynamic business environment. The institute could attain the reputable position in the management education by following a holistic approach in providing the priming ground to budding business leaders.

VISION

To be recognized as a key contributor in innovative management education in India.

VALUES

- Integrity
- Collective Decision Making
- Academic Freedom
- Compassion with Commitment
- Sensitivity to Sustainability

MISSION

Institute of Management Technology, Nagpur strives to:

Ensure a value driven and technology oriented academic environment.

Excel in offering industry-relevant management programs with an innovative and entrepreneurial approach.

Enrich knowledge base through applied research, consultancy and collaborative studies with corporate on business practices.

Engage students and faculty in understanding societal needs and ideating solutions.
Dear Students,

With change ubiquitous, the world has transformed at an overwhelming pace. Technology has invaded all aspects of life and business; emerging technologies such as Blockchain, Internet of Things and Artificial Intelligence, to name a few, pose existential threat to conventional businesses and business processes. Businesses once considered robust and insulated from market threats for generations are falling thick and fast. Only the resilient and change-ready businesses can survive. IMT Nagpur, a relatively new entrant in the business school space, has grown steadily to carve a place for itself in a rapidly changing business education sector, finding a place in the top 30 B-schools consistently over the years because ‘Change’ has become our second nature. Being socially responsible has been the precursor to whatever we do at IMT Nagpur. Our programs are designed keeping in mind the macro-to-micro perspective in the world of business, with an endeavor to address real time problems. The pedagogy at IMT Nagpur is learner-focused and strives to make each class an experiential one. Ample use of cases sourced from Harvard, IVEY and other repositories, articles from Wall Street Journal and New York Times, experiential labs, simulations and world class mentoring ensures a stimulating and enlightening learning experience to be coveted lifelong. Each class prepares you to lead in a world of uncertainty and change, without having to compromise with your core values.

Let me invite you to this exciting little world of knowledge and self-discovery.

Director,
IMT Nagpur
IMT Nagpur campus is serene and tranquil from the outside but vibrant and spirited inside. A melting pot of diversity, the institute stands tall with a distinct identity in central India, having set new standards in management education for the last decade and a half. Top Govt. agencies, including National Board of Accreditation have endorsed it for five years. Accorded the Super League status and ranked within the top 20 management institutes by survey agencies, it is one of the youngest B-Schools to achieve such distinction. At IMT Nagpur we ensure the students are trained to be business leaders with soft skills, ethical values, thought leadership, teamwork and strategic thinking to scale professional heights and make their families and alma mater proud. Overall, each student is carefully sculpted to fit and excel in the corporate world. This learning process extends to the realm outside of the classroom and faculty mentoring. A bulk of their learning comes from their peers and extra-curricular engagement. Various student-led committees, clubs and forums organize activities based around music, sports, cultural activities, photography, quizzing and several others keep the students’ passions alive. The institute encourages these extra-curricular activities and provides funding for such events. The 27-acres green campus houses all the amenities for an enriching life – be it a student run cooperative store, more than a dozen indoor and outdoor sports facilities or a gymnasium to keep one fit. IMT Nagpur believes in experiential learning, and as such, has a bevy of outstanding faculty with a mix of diverse academic qualifications and industry experience. Some of the faculty members have served in the industry at senior positions for around two decades. This allows the course curriculum of the institute to be aligned with the dynamic business requirements of the corporate world. Apart from regular full-time faculty, the Institute also invites guest faculty from leading B-Schools as well as senior corporate experts from the industry to teach courses from time to time.

For more details, please visit: www.imtnagpur.ac.in/faculty
IMT-N’s multi-faceted academic program has many unique offerings for a budding student manager. Some of them are:

**SOCIAL ENTREPRENEURSHIP PROJECT:**

IMT-N has initiated a Social Entrepreneurship Project (SEP) as a mandatory component of its PGDM curriculum. The fifteen month long project has five credit point attached to it. As a group project, students make multiple visits to designated villages along with their faculty mentors to identify the opportunities and gap areas in the rural setup.

The project, on one hand, provides an extraordinary opportunity to students to learn the ground realities of the rural ecosystem, on the other, creates a scope for students to showcase their innovative problem solving skills as well as enterprising approach to apply management theories to practice.

**LAB-BASED COURSES:**

IMT-N runs specialized lab courses across various areas, e.g. marketing lab, leadership lab, investment lab and so on. Select students, based on a pre-determined criteria, become part of these courses. For instance, in marketing lab, students in a group have to come-up with a unique idea (creating a product or service), identify its intended market, direct/indirect competitors, customers, business model and other ingredients. Students develop their idea from scratch and are encouraged to implement their idea on ground.

Over the years, few groups have successfully formulated their company and are running them successfully. It gives students a chance to apply their knowledge of management concepts and skills to test how best it fits in the real market conditions.

**SPECIALIZED CERTIFICATIONS:**

IMT-N has partnered with various industry leaders to provide certification programs to students in cutting edge areas, such as, business analytics, lean six sigma, interpersonal and soft skills to name a few. These certificate programs are offered by leading industry partners such as KPMG, SAP, NSE, IBM and Dale-Carnegie. Such kind of certifications not only give students an edge over others but also makes them industry ready.
LIFE-SKILLS TRAINING:
Select group of students take part in excursion program in which they explore Himalayan Terrain to learn life skills as part of course curriculum. Through this journey of experiential learning, students not only explore the outer sphere of the world but also focus on the inner space through a variety of tools and techniques. This life-skill training provides an exceptional opportunity to students to connect

CORPORATE ENGAGEMENT:
In an academic year, IMT-N hosts more than 100 senior corporate experts for student interaction. Apart from industry guest lectures which is part of most of the courses, institute organizes corporate interaction sessions which is mandatory for students. Further, as part of the course curriculum, students are taken to industrial visits which helps them to witness the latest management practices applied on

FLEXI-CORE COURSES:
Before opting for specialization in second year, IMT-N provides its students an option to choose flexi-core courses from a bouquet of courses offered from different functional areas in third trimester of first year itself. This helps students to test their aptitude and liking towards a particular specialization before actually opting for it.
IMT Nagpur, backed by state-of-the-art infrastructure, has been meticulously designed to conform to international standards. The institute offers its students some of the best resources available through modern technology. The purpose is to streamline the process of learning and research. IMT Nagpur’s combination of modern resources with experienced pedagogy have been a big part of the institute’s success in grooming effective and socially conscious business leaders.

IMT Nagpur’s Learning and Resource Centre has a vast collection of books, journals, periodicals and international publications for study and research. Further, the LRC also provides access for several online resources. The institute’s E-cell helps facilitate sustainable growth and development for the budding entrepreneurs, while student-led committees and clubs actively organise various events and activities.

Understanding the need for recreation as an important part of a student’s life, IMT Nagpur offers one of the best sports facilities in Nagpur. The events at IMT are so lively that students just can’t help themselves from enjoying their time at the institute.

ADMISSION APPLICATION PROCESS

Applicants may submit any of these test scores: CAT-2019 OR XAT-2020 OR GMAT (1st January 2016 – February 28, 2020) OR CMAT 2020 score. Applicants can submit more than one test score. GMAT test-based candidates are required to update their test score, on or before March 15, 2020. For candidates applying on the basis of GMAT with pending scores, the processing of application will be provisional. IMT will consider the best score before making the final admission offer.

Applicants will be short-listed for Group Exercise and Personal Interview (GE & PI) round on the basis of the best submitted score at this stage. Applicants will be called for GE & PI process only once. Please note that GE & Personal Interview process is common for all campuses.

Kindly Note

Short-listed applicants will be called for the GE & PI round at the center/venue they select in Common ‘Application Form’ and on the date and time which they will select through the GE & PI Schedule Form, which will be available on IMT’s Admissions Portal.

Admissions Decision

Admission decisions will be made after the GE & PI process and admission offers will be made to the selected applicants.

Selection Process

IMT will conduct the GE & PI process in February and March 2020 for shortlisted candidates.

Group Exercise & Personal Interview

The candidate shortlisted will have a Group Exercise & Personal Interview process. Group Exercise is aimed at identifying the leadership potential, contribution of ideas and innovation & creativity of candidates. Whereas, the PI process attempts to evaluate in a candidate the following aspects:

- Communication & Interpersonal Skills
- Analytical & Problem Solving Skills
- Business Affairs and General Awareness
- Domain Knowledge
- Future Potential for Employability

The final merit of the candidate is a cumulative weighted average of the following components:

<table>
<thead>
<tr>
<th>Parameter and Percentage</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Test score Percentile</td>
<td>35%</td>
